ZERO15 - ZERO STONE

Zero15 nasce da una linea sottile: un profilo in alluminio di 1.5 mm che definisce i contorni, racchiude materiali, costruisce il segno. Intorno a questo bordo si articolano superfici in vetro lucido o satinato, essenze di Rovere o Noce, specchi e laccature profonde. La collezione si sviluppa in sistemi modulari caratterizzati da cassette a gola e fianchi di tamponamento laterali, contenitori monoblocco a 45° dotati anche di apertura push-pull, colonne e pensili coordinati. ZeroStone ne raccoglie la struttura e la semplifica: un mobile puro, privo di telaio a vista, interamente rivestito in marmo. Due espressioni dello stesso rigore progettuale, dove materia e funzione definiscono la forma.

Zero15 originates from a subtle line: a 1.5 mm aluminium profile that outlines, encloses, defines. Around this edge, surfaces unfold—glossy or satin glass, oak or walnut veneers, mirrors and deep lacquers. The collection develops into modular systems featuring groove-opening drawers, lateral side panels, and 45° monoblock units also available with push-pull opening, as well as coordinated columns and wall units. ZeroStone inherits the structure and simplifies it: a pure volume, without visible frame, entirely clad in marble. Two expressions of the same design discipline, where material and function shape the form.

A reserved moment, an essential space. In the bathroom, architecture becomes intimate - a gesture, a material, a light. Every surface speaks the same language, every detail belongs to the same vision. Aluminum, stone, wood, transparency, volume. Anything is decoration, everything is construction. The bathroom is no longer just function: it is form that welcomes, a place that tells a story, a space that suspends time and restores silence. Casabath is the story of an idea shaped into space.
