

A modern bathroom interior featuring a wall of black marble with white veining. Two sleek, black, cylindrical pedestal sinks are positioned against the wall. Each sink is supported by a tall, ribbed, black pedestal. The sinks are illuminated from below, creating a soft glow. Above each sink, a modern, curved, black faucet is mounted on the wall. The floor is a light gray, and the overall atmosphere is sophisticated and contemporary.

LUCE

LUCE

LUCE È UN LAVABO FREESTANDING CARATTERIZZATO DA FORME GEOMETRICHE PURE ARRICCHITE DA DETTAGLI E CONTENUTI CHE NE FANNO UN OGGETTO DI GRANDE PERSONALITÀ.

LUCE È UN LAVABO FREESTANDING CHE INTEGRA NELLA PARTE INFERIORE DELLA VASCA UNA ILLUMINAZIONE LED ALTAMENTE SCENOGRAFICA CHE DÀ ALLA STANZA UNA ATMOSFERA INTIMA E INTROSPETTIVA.

LA VERSIONE CONVASCA IN MONOLITH HA IL BASAMENTO IN ALLUMINIO TORNITO CHE NELLA VERSIONE RIGATA VIENE LAVORATA CON MACCHINE A CONTROLLO. SUCCESSIVAMENTE LA BASE VIENE VERNICIATA NEL COLORE DESIDERATO PER ESSERE ABBINATA AD EVENTUALI MOBILI O RIVESTIMENTI. IN QUESTO CASO È POSSIBILE VERNICIARE DELLO STESSO COLORE ANCHE LA PARTE ESTERNA DELLA VASCA IN MONOLITH.

NELLA VERSIONE REALIZZATA IN MARMO LA SEMPLICITÀ DELLA FORMA ESALTA LA BELLEZZA DEL MARMO MANTENENDO UNA ESTETICA MOLTO MODERNA.

ANCHE IN QUESTO CASO VENGONO UTILIZZATI MODERNI MACCHINARI PER LA SUA REALIZZAZIONE, MA LA NATURA STESSA DI QUESTO MATERIALE RICHIEDE ANCHE L'INTERVENTO MANUALE PER UNA ACCURATA FINITURA CHE NE AUMENTA IL VALORE.

LO SCARICO E IL "PUNTO LUCE" PER IL COLLEGAMENTO ELETTRICO SONO SEMPRE PREVISTI A PAVIMENTO. TUTTI I CABLAGGI E L'ALIMENTATORE SONO CONTENUTI IN UN BOX PROTETTO. L'ACCENSIONE PUÒ ESSERE COMANDATA DA REMOTO PERCHÉ SUL LAVABO NON SONO PREVISTI INTERRUTTORI.

PER LA VERSIONE IN MARMO VIENE UTILIZZATO BIANCO CARRARA, NERO MARQUINIA, VERDE ALPI E ROSSO LEPANTO. IN QUESTO CASO IL BASAMENTO È DISPONIBILE SOLAMENTE NELLA VERSIONE LISCIA.

IL LAVABO E IL BASAMENTO SONO REALIZZATI DA BLOCCHI DI MARMO PROVENIENTI DALLA STESSA ESTRAZIONE PER AVERE IL PIÙ POSSIBILE UNA UNIFORMITÀ ESTETICA, TRATTANDOSI PERÒ DI MATERIALE NATURALE POTRANNO COMUNQUE ESSERE PRESENTI LEGGERE DIFFERENZE TRA I DUE ELEMENTI.

LUCE IS THE GEOMETRICAL SHAPED FLOOR WASHBASIN ENRICHED WITH DETAILS AND FEATURES THAT MAKE IT A CHARISMATIC ITEM.

LUCE IS A FLOOR WASHBASIN THAT INTEGRATES A SPECTACULAR LED LIGHTING AT THE BOTTOM OF THE SINK, WHICH GIVES TO THE ROOM A MORE INTIMATE AND INTROSPECTIVE ATMOSPHERE.

THE MONOLITH SINK VERSION HAS A TURNED ALUMINUM BASE AND - IN THE RIBBED EDITION - IT IS MANUFACTURED WITH A CNC MACHINE; THEN, THE BASE IS PAINTED IN THE DESIRED COLOR FOR POTENTIAL MATCHING WITH FURNITURES OR COVERINGS; IN THIS CASE THE EXTERNAL PART OF THE MONOLITH SINK CAN BE PAINTED IN THE SAME COLOR TOO.

IN THE MARBLE VERSION, THE EXTREMELY MODERN DESIGN IS PRESERVED BY THE SIMPLICITY OF THE STRUCTURE THAT ENHANCES THE BEAUTY OF THE MARBLE. ALL TYPES OF UP-TO-DATE MACHINERY IS USED FOR ITS PRODUCTION; HOWEVER - BECAUSE OF THE NATURE OF THIS MATERIAL - AN ADDITIONAL HUMAN INTERVENTION IS REQUIRED IN ORDER TO ACHIEVE A THOROUGH FINISH THAT INCREASES THE VALUE OF THE ITEM.

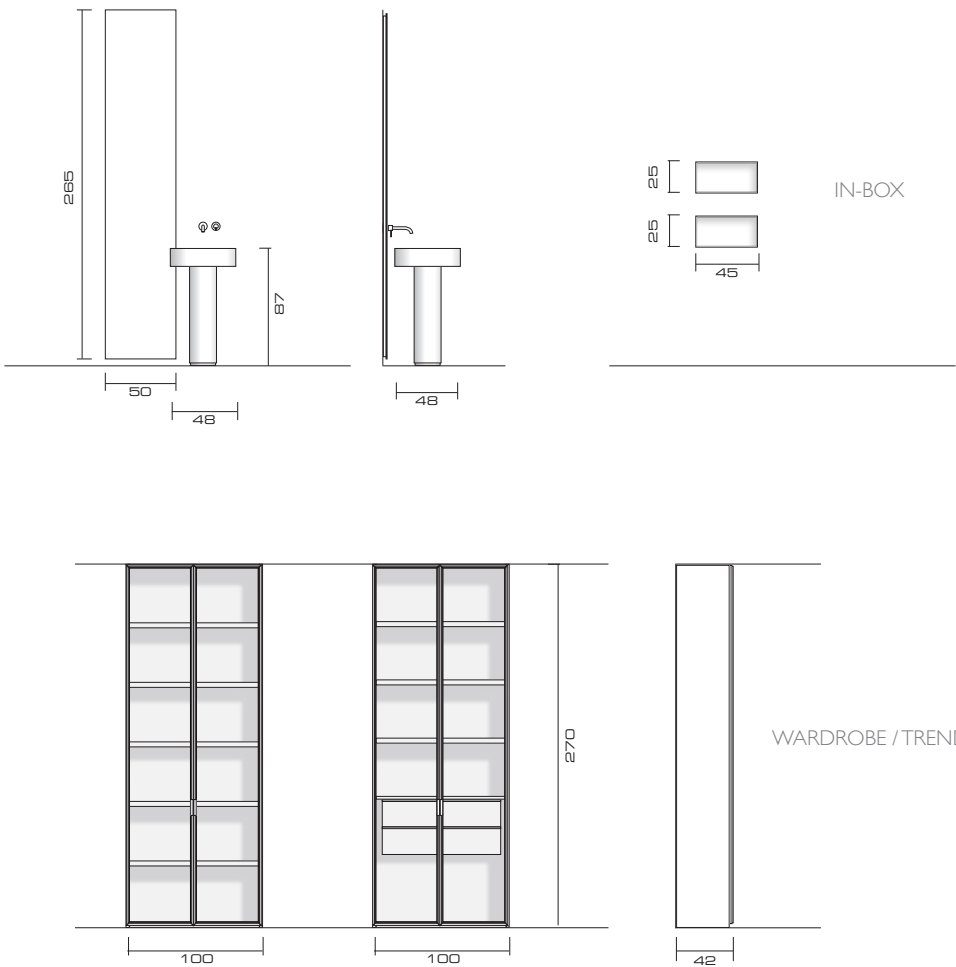

THE DRAIN AND THE LIGHTING POINT FOR THE ELECTRICAL CONNECTION ARE ALWAYS PROVIDED ON THE FLOOR. ALL WIRING AND POWER SUPPLY ARE CONTAINED INTO A SECURED BOX. REMOTE CONTROLLED LIGHTING AVAILABLE, SINCE THERE ARE NO SWITCHES ON THE SINK. CARRARA WHITE, MARQUINIA BLACK, LEPANTO RED AND ALPI GREEN ARE USED FOR THE MARBLE VERSION.

THE BASE OF THE MARBLE VERSION IS ONLY AVAILABLE IN SMOOTH STYLE.

BOTH SINK AND BASE ARE MADE WITH MARBLE BLOCKS COMING FROM THE SAME MINING TO ENSURE A UNIFORM AESTHETIC; HOWEVER, THERE MAY BE SLIGHT DIFFERENCES BETWEEN THE TWO ITEMS BECAUSE OF THE FEATURES OF THIS NATURAL ROCK.
